

XLR 2016

AWARD WINNER

XLR BOOST

TRAVEL TRAILERS & FIFTH WHEELS

PLAY HARD - REST EASY

After a rugged day out with the toys, Boost is a well appointed retreat. Get cookin' with gas on the recessed three burner cooktop complete with a glass cover, plus a convection microwave. There's plenty of cabinet storage and an 8 cu. ft. gas/electric refrigerator.

Great looking LED accent lights

This three recliner sofa is optional in place of the U-dinette, available on 29QBS, 31QB and 36DSX13.

Play hard. Get dirty. Boost's neo-angle shower is big on capacity.

XLR BOOST

GO BIG

Boost has the capacity to carry a muscular four-seat ATV, with mega garage lengths from 12'6" to 16'. Choose the standard tri-color metal exterior with upgraded wheels or, step up to the high-gloss fiberglass exterior, available on all floorplans!

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight) - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

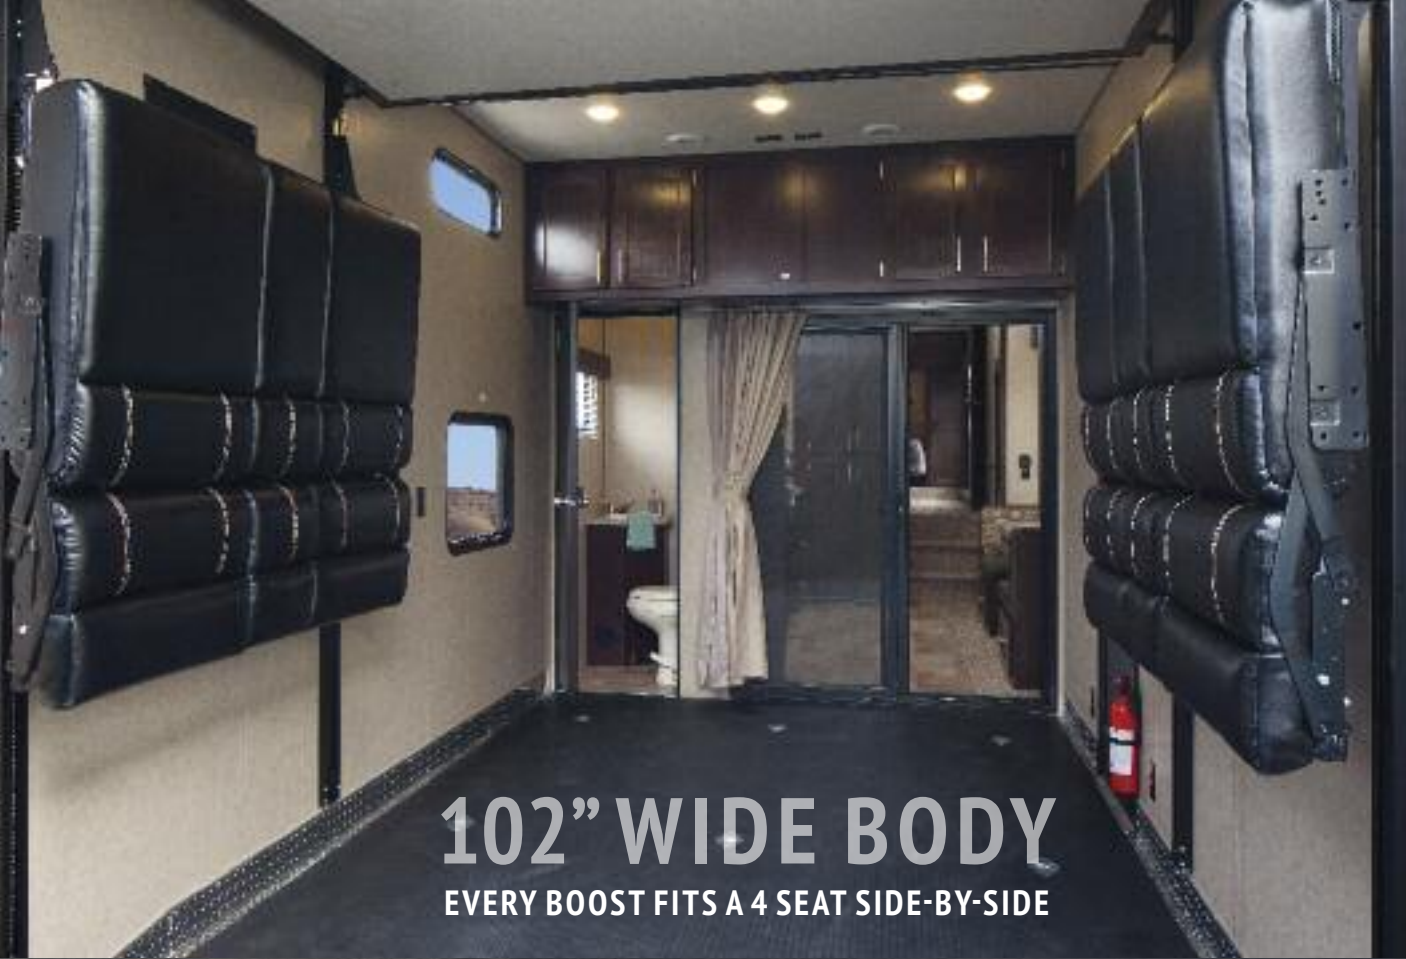

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs. per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

*Estimated Average based on standard build optional equipment.

**Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

102" WIDE BODY
EVERY BOOST FITS A 4 SEAT SIDE-BY-SIDE

BOOST HAS YOU COVERED

Pack up and take your show on the road! With Boost's mega garage capacity, you have a secure place to wrench on your quad, catch some Z's or, kick back and hang with friends.
